Message From The Principal

THE MEMBERS of this year's class have reached another rung in the ladder of success. You have surmounted many of the obstacles which either retard progress or prevent it altogether. You deserve commendation for this achievement. There is a natural law which operates to eliminate the weaker of the plants and animals. This same law has a similar effect upon individuals within and without the school. It then becomes necessary for each one of us to strive to do our best in whatever we undertake.

Just at this time many of us are beginning to think more seriously about our next step. There are usually several attitudes manifest by the different members of the same group. Some take the attitude of waiting until a particular opportunity presents itself, others take the very first opportunity and make the best of it until a more desirable one comes along. This latter group are always on the alert to seize better and more desirable things to do. In doing this they finally attain the goal to which they have been working.

If I might be of any service to the boys and girls of this class I would like to urge each one to look about them for the many opportunities which are waiting for someone to take. If you are not satisfied with what you find the first time do not be too quick to turn it aside. It would be better to take this job or position even though it is not the thing you wish finally to do, using that as a stepping stone which will lead to that which you have chosen.

Finally, I would advise that you do not waste your time doing nothing. If you cannot find some employment either as a student in some college or specialized school, avail yourself of any additional training your high school may offer which would help you on to your goal. May success be yours in whatever field you choose for your life work. Let us help you attain it.

JAMES WASHINGTON CASEY

"CASEY"

*"Plays the game and knows the limit,
Yet he gets all there is in it."*

Class Baseball '32, '33, '34, '35, '36; Class Basketball '34, '36; Class Volley Ball '33, '34, '35; Latin Club '32; Choral Club '33, '34, '35; Dramatic Club '36; Basketball Squad '34, '35, '36; Baseball Squad '33, '34, '35, '36; Negro Debate in Dramatic Club Program '36; Associate Business Manager AURORA '36.

If "two in one" is shoe polish, and "three in one" is oil, what is "four in one"? You will doubtless answer five, but your answer is incorrect. "Four in one" is "Casey," because he is a four in one man—namely: an athlete, a true sport, a gentleman, a mischievous, though loyal, classmate.

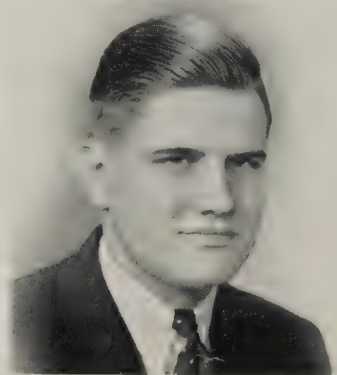

CHARLOTTE GARBER ARGENBRIGHT

"CHARLOTTY"

*"She meets success in work and play,
As well as with her friends."*

Dramatic Club '33, '34, '35, '36; Basketball Squad '34, '35, '36; Class Volley Ball '34, '35; School Chatter Staff '36; AURORA Staff '36.

Charlotte is one of our leaders and an outstanding athlete. She is a good student and a true friend. We know she will be successful and make many friends in college.

BILLIE CARLYLE CRAUN

"BILL"

"Oh, Ladies, Good Ladies, please leave me alone."

"Bill" is a quiet, good natured fellow, who has no association with the ladies. He has been a good student and has, by his honest effort, been able to hold down his usual A's and B's. The class of '36 expects great things of him in the future.

MARY KATHRYN BRADBURNE

"MARY KATHRYN"

*"As welcome as sunshine in every place
Is the beaming approach of a good natured face."*

Choral Club '33, '34, '35, '36; Captain of Physical Education Team '36; Lieutenant Physical Education Team '34, '35; Class Volley Ball '33, '34, '35; Calendar Editor for AURORA '36; Part in Plays: "Not a Man in the House"; "Chocolate Cream Wedding"; Carnival; "Darkey Town Minstrel."

Who is the tall brunette? You know her; that is our Mary Kathryn. Everyone knows our kind and friendly classmate. Those who do not know her, want to when they see her warm, sunny smile. She has many friends and has been a true companion to all those around her.

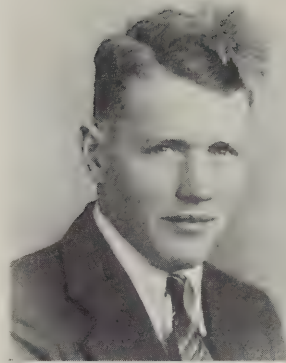

JOSEPH SAMUEL FOSTER

"JOE"

*"He is modest, he is shy,
But there's mischief in his eye."*

"Joe" is our quiet friend from Briery Branch. He entered our class in the sophomore year, and is a fine student, as well as a good baseball player. We picture him in the years to come as a noted preacher.

FRANCES MAE CLINE

"FRANCES"

*"Here's a girl with a heart and a smile,
That makes the bubble of life worthwhile."*

Dramatic Club '33; Choral Club '34, '35; Handicraft Club '36; Class Volley Ball '33, '34, '35, '36; AURORA Staff '36.

Frances's happy disposition has won for her a place in the memory of every member of our class. She is always able to see the bright side of everything. We know she has much in store for the future.

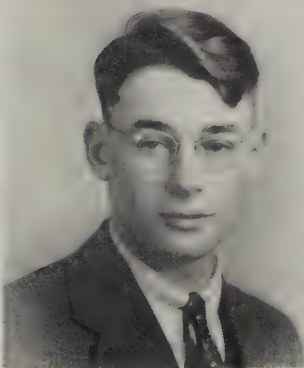

EARL CLEATUS GORDON

"EARL"

*"He is true to his word,
His work, and his friends."*

Science Club '33, '34, '35; Out Door Club '36; Circulation Manager of AURORA '36.

Earl is a very faithful member of our class, always on time and willing to help in any way. His smile and his polite manner have made him many friends who wish him luck in his future life. We'll miss you, Earl.

Ivy has been with us since her sophomore year. She has been a true classmate and friend. We know B. H. S. couldn't have played and won so many basketball games without her. We all hope you will continue life as you have thus far begun, Ivy.

*A classmate
Mearl Gordon*

MEARL GRIFFITH GORDON

"GORDON"

"If any man wishes to escape idleness, let him fall in love."

Dramatic Club '33, '34, '35, '36; President of Senior Class '36; Secretary of Dramatic Club '36; Part in Plays: "When Jane Takes a Hand," "Diamonds," "Chocolate Cream Wedding," "Oh! Professor!," "The Weigh of All Flesh."

Mearl is a Bridgewater boy of whom we are very proud. He is a credit to B. H. S. and is liked by all his classmates. As president of the class he has shown himself competent, self-reliant and trustworthy. We think that Mearl has no need to fear idleness, as he can always be found in the hall with "Her" at lunch time.

MYRA VIRGINIA FOSTER

"MYRA"

*"Quiet and shy, reserved and true,
Much respect to her is due."*

Class Basketball '34, '35, '36; Basketball Squad '34, '35, '36; Basketball Team '34, '35, '36; Manager Class Basketball '36; Choral Club '34, '35; Out Door Club '36; Class Volley Ball '34, '35; Wearer of B. H. S., '34, '35, '36; AURORA Staff '36.

During the three years that Myra has been with us she has distinguished herself from the rest of the class by her expert guarding in basketball. She joins wholeheartedly into all games, and in her quiet winning way has made herself many friends. Our best wishes for success go with you, Myra.

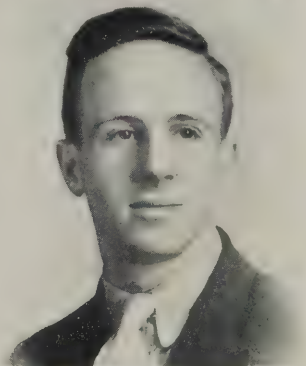

CHARLES HALE GRAHAM

Late for classes, too;
But if you want to play a joke,
We'll see what 'Graham' will do."*

Class Baseball '36; Vice-President of Out Door Club '36; Captain of Boxing Team '36; AURORA Staff '36.

"Graham" did not come to B. H. S. until this year. He is jolly and friendly with everyone and is a good student. His one failing is being tardy, but we are sure this will not hinder his success.

ELLEN ANN FURRY

"ANN"

*"How doth the little busy bee
Improve each shining hour."*

Choral Club '33, '35, '36; Dramatic Club '34; Assistant Editor of School Chatter '35; Editor of School Chatter '36; Part in Play: "After the Game."

Ann is one of our busy little classmates. With all her work she still finds time to enter into the fun of the class. Her sweet little smile and giggle have made her many friends. Luck to you, Ann.

We can all hear Miss Miller's gay voice saying, "Lillian, turn around and quit talking to Eleanor." But without merry old "Lil" we would be almost a dry class.

RANDOLPH HENRY LAMBERT

"LAMBERT"

*"The merry heart goes all the day
While a sad one tires in a mile."*

Dramatic Club '36; Class Baseball '36; Advertising Manager of AURORA '36.

"Lambert" got a late start at B. H. S., coming here as a senior after taking three years at Dayton. He is blessed with the gift of "gab," often taking an argumentative turn. We wonder if "Lambert" won't become a noted lawyer some day.

Flowers and Youth

Flowers spring forth, bloom, and fade away.
Are we not better than flowers
That God has decked with beauty.
He gave them no sense of touch or mind of thought;
They speak not, toil not, weave nor spin,
But spread happiness and joy with
Their fragrant perfume and beautiful colors.
The Lily-of-the-Valley, our class flower,
With white petals and heart of gold
Still grows by the wayside to share its beauty with others.
We, the flower of youth, have grown
In wisdom, knowledge, and faith.
Not with fragrance or beauty will we bring happiness.
But we must serve others the best we can,
Share what we have, ask naught;
Overcome handicaps, survive storms, endure pains, and resist temptations;
We'll be no withered flower fading away,
But will lift our faces to God
Who gives us strength to overcome and endure.

Valedictory---Are We Debtors?

PARENTS and friends, we, the graduating class of nineteen hundred and thirty-six, are indeed glad to have you with us on this our last meeting as a class.

It is not with arrogance and pride in our individual achievement that we meet here, but with humble gratitude to you, our parents and friends, who have made it possible for us to reach this goal.

We feel that we are indebted to you and we hope that tonight we can take a step toward paying that debt.

Who is a debtor? Any one who has received something and has not paid for it is a debtor.

Are we as a graduating class debtors? That is the question in the minds of each and everyone of us. We have inherited a home of freedom, a land of opportunities and privileges, comforts and joys of life, schools and churches for the physical, moral, and spiritual development of the mind and body.

We owe those who fought and died that we might have a home of freedom, and those who suffered and sacrificed that we might have schools, churches, and comforts of life, and an opportunity to reach the goal toward which we aspire.

To you, our parents, we owe much. You have sacrificed so that we could be here. You gave of the best you had, and suffered beyond endurance that you might be of aid to us. You did not have the opportunities of schooling that we have had. Your parents did not co-operate with you in getting an education as you have with us. It was through your efforts that we overcame the handicaps that barred your early life from schooling. We commend and praise you for what you have done for us.

We owe much to our community within which this great institution of youth training has been established, for the interest it has taken in helping us build a firm foundation, so much needed by a group of young people who are ready to step out into the more tempestuous walks of life. As a local unit of freedom it has given to us many inheritances that young people of other nations do not have. It is interested in us and has built schools and churches for our benefit. In return, it is watching anxiously to see a blooming generation of young men and women walk out into the world to shine for others.

Our school is one great foundation in which the corner stones of our lives are made and laid. Perhaps many do not realize the important part it plays in the forming of our habits and ideals. We, who have reached this platform tonight as candidates for diplomas, in a measure know what our school means to us.

We can appreciate more fully our teachers, who serve through many tiresome hours leading us to know the best things of life, to deal honestly with our fellow man in happiness or sorrow, to be honest, just, and fair in all we do or say, to build character with physical and moral strength that can resist temptations, and to return good for evil even in time of reverses. It is to those who from day to day strive to fit us for life, that we owe a never canceled debt. They have started us aright, up the topless ladder, not the ladder of great riches, but the more valuable ladder of simplicity and service that leads to success in the end—where we shall live for others and not for ourselves alone. They have encouraged us to abandon all selfish ideas, to be a friend to man, and seek to bring peace on earth.

We care not to live alone. Even the world has given to us, so we must return the gift. We have received an almost endless knowledge of science from the corners of the world; science of art, sciences of medicine, science of the human being, and sciences of religion, that help us live and want to live a happier, more comfortable life.

Unnumbered volumes of good literature have been handed down to us. Often we do not appreciate these masterpieces, but we base our foundation of knowledge upon them and cannot live well without them. Great men have studied literature and thus have laid foundations for character that the world knew. Abraham Lincoln is an outstanding example of one who studied untiringly and succeeded in life. It is the good literature we have inherited that should give us a feeling of pride and inspire us to learn more. Though we can never repay the great authors such as Longfellow, Shakespeare, and Wordsworth, we can learn to know them through their work, and let their noble ideas permeate our lives so that we can make the world a more beautiful place.

What are we as a graduating class going to do about the debt we owe? Are we going to drift along at ease like a "painted ship upon a painted ocean?" Are we going to fall in mid stream and struggle against the current constantly? Are we going to sink to rise no more? Or have we prepared ourselves so that we are strong enough to struggle against the current and overcome the hardships—finally reaching a goal of service to the world?

We want to walk out from this class into the highway of life and begin at the bottom to pay our debt. We cannot pay it with money and valuable materials. Great riches will not count. It is not riches that God and humanity expect to receive in return for the debt we owe.

They want our service, our perseverance, our leadership, our advice—they want our very lives. Thus by giving our all in the service of humanity—by using our talents to make the world better; thus only can we pay the great debt we owe.

So—to you, our parents and friends, and to you, our teachers, and to God who has used you as instruments in pointing out to us the real values of life, we acknowledge our debt, and pledge ourselves to strive to make society say, "the world has been made a better place because of the lives of service of the members of the class of 1936."

Salutatory---The Value of Education

PARENTS, teachers, friends: I have no words strong enough to welcome you here tonight or to express our appreciation for all you have done for us in making the opportunity for attending high school possible. I really wonder sometimes if we, the graduating class of 1936, know the value of an education and have taken advantage of the opportunities which have come our way.

The value of an education is beyond estimation. It matters not what type of work we may wish to enter, the first question asked is, "How much education do you have?" Therefore we see it is very important, if we are to earn an honest and worthwhile livelihood. But not only this, for if we have a good education we shall have a reward in the rich stores of knowledge we have thus collected, and which we shall ever have at our command. A good education is more valuable than any earthly treasure we may possess for it is something no one can take from us.

Education of every kind has two values—value as knowledge and value as discipline. Besides its use for guidance in conduct, the acquisition of each order of facts has also its use as mental exercise; and its effects as a preparative for complete living have to be considered under both these heads.

Now, let us look at the value of education from the point of discipline or in the guidance of our conduct for it is a good education that inspires us to accomplish the most worthwhile things in life. If we have studied and prepared for it, our life will most certainly be one of unselfish service for others. For what greater value has education as discipline than a life of worthwhile service for others? And it is only through education, which is the keynote of our conduct, that we can serve others and really be worthwhile in whatever field of work that we may enter.

Swedenborg says: "It is of no advantage to a man to know much, unless he lives according to what he knows, for knowledge has no other end than goodness; and he who is made good is in possession of a far richer treasure than he whose knowledge is the most extensive, and yet is destitute of goodness; for what the latter is seeking by his great acquirements, the former already possesses."

Education cannot be acquired without pains and application. It is troublesome and deep digging for pure water, but when once you come to the springs, they rise and meet you. Every grain helps fill the bushel, so does the improvement of every moment increase knowledge.

We find that one of the most agreeable consequences of knowledge is the respect and importance which it communicates to old age. Men rise in character often as they increase in years; they are venerable from what they have acquired and pleasing from what they impart. Knowledge is the treasure, but judgment is the treasurer of a wise man. Superficial knowledge, pleasure dearly purchased, and subsistence at the will of another, are the disgrace of mankind.

"A wise man," says Seneca, "is provided for occurrences of any kind: the good he manages, the bad he vanquishes; in prosperity he betrays no presumption, and in adversity he feels no despondency. Thus anyone can see the very vital importance of a good education."

And now, dear classmates, as we go out in the world may we profit from our years spent in high school and even though many of us will not have the opportunity of going on to school, we can still further our education by reading good books and magazines, and may we all come to know the meaning of a good education.

In closing, I should like, in behalf of the graduating class of 1936, to thank each and everyone of our parents, teachers, and friends who have contributed no small part in making the opportunity for each one of us to obtain a high school education possible.

Prophecy

RECENTLY I visited in his laboratory one of the strangest and most remarkable scientists the twentieth century has ever known; and he was none other than my old schoolmate, Clarence Rogers. I had kept in touch with him since the year of '36 and now he had asked me to come to see his most recent invention, the infra-magnetic-television-eye.

As I was ushered into a fully equipped laboratory I saw on one side a large metal screen, and on the opposite side a strange apparatus similar to an x-ray machine. At the end of the machine toward the screen a dark glass lens glared at me.

Clarence bade me be seated so that he could show me how his invention worked. Wonderingly, I watched him as he attached wires to the terminal of the apparatus. Then he turned a large black switch, which looked much like the dial of a radio. A small motor hummed and the projector quivered. As the bee-like sound increased, a brilliant silvery light issued from the dark lens and was reflected brightly on the metal screen, changing slowly to a dull red which glowed with savage intensity. Suddenly it disappeared and in its place was an actual moving picture of New York City.

Amazed, I looked to my friend for an explanation, and he told me that with his infra-eye he could bring into view any part of the world at his pleasure. Immediately an idea struck me, "Why not look up the old schoolmates of '36?" Clarence thought that it would be great fun and it would also be a definite test for his machine.

He turned the switch to a certain point and increased the current through the transformer, and on the screen the interior of a large business office appeared. To my surprise there sat Nolan Kohne, deeply interested in a book, his mouth filled with a big black cigar. From his attitude he must be the vice-president of some large firm in New York City.

The scene shifted to a large hotel and there a tall efficient looking man hurried to and fro as if he owned it all, but I think he was the manager. I remarked that the man looked like Marion Thacker, and Clarence instantly agreed with me.

Next there loomed before me the facade of an adequate sized furniture store. Now I wonder who could be a furniture salesman from B. H. S. And such a noise! What does that represent? It's "Tommy" Wintermyre sleeping on one of those "Beauty Rest" mattresses. An easy job and such an advertisement!

The scene changed to a crowded ballroom. Who's the sophisticated young lady who seems to be the center of attraction? None other than Mary K. Bradburne, and the handsome lad who is doing his best to break is Orey Huffman. Feature that!

Flash! And there was another location in the elaborate Park Avenue home of Catherine Simmons, to find her busily engaged in designing a dress for the nymph-like figure of Alice Miller.

And of all things, there's Talford Will making up "Kit" Dovel's face for her latest picture, "Speedway," co-starred with Dewitt Miller.

A graceful young lady walked leisurely down the boulevard with her finger looped in the chain of her Scottish terrier. I think it must have been Charlotte Argenbright, but just then the scene moved and further view was prohibited.

"Whoa-there," hollered Leroy Lineweaver, as he led his tired mules to the watering trough after a toilsome day of plowing.

In the midst of a raging argument sat James Casey and Randolph Lambert, portending who would be the next president.

The lights hurt my eyes, they were so brilliant. They illuminated even remote surroundings, flashing off and on the names of Eleanor and "Lil" as sensational tap-dancers.

Earl Wise was the next one of my classmates I saw. He was busy pushing buttons and demanding why no one answered his calls, but finally Mary Elizabeth Miller and

Dorothy Bassist, two of his brilliant young secretaries, rushed frantically in ready to take orders at his command.

A hilarious and boisterous din reached my ear as I saw a group of people seated around a fireplace. No wonder they were laughing. Ward Wenger had just finished reading one of his, now world famous, anecdotes.

My eyes encountered a peculiar scene. There wasn't a bit of hurry and scurry, simply a distinguished young gentleman walking slowly and quite noiselessly over to his office desk, then silently seating himself. As he turned around, I recognized immediately Hale Graham.

Joe Foster—well what is he doing there, nothing? Now that's surprising.

Busily going from one counter to another is Sylvia Riddleberger, selecting her trousseau for her trip to Paris.

"Repondez en francais," asked Naomi Thacker, conducting a French class in Toronto, Canada, with Hazel McInturff receiving instructions as substitute.

A grandstand filled to capacity was eagerly anticipating the midget auto race where I. N. Dovel and "Son" Taylor were expected to compete for the remaining mile.

The lens next focused on a part of the Alps Mountains to find Rodney Snyder and "Rudy" Spitler about to undertake a perilous flight on skis.

Soft melodious music drifted to my ears, as I saw Henry Pitsenberger conducting his orchestra just about to announce lovely Ethel Miller as vocalist.

Look! There's Jesse M. Miller (a famous astronomer) gazing into that telescope.

See that sign! "Margaret Shaffer and Frances Whitesel. World famous stage stars. Last chance to see them today." Haven't they been successful?

"Boo-oo- ho-oo," sobbed Frances Cline's youngest daughter. Oh dear, Frances, I know you must have a job raising a family of two. But as long as your efficient little nurse, Frances Thacker, is with you, they're sure to have excellent treatment.

Oo-oo, doesn't that scene make your heart beat just a little faster? And in the midst of all those palm trees sits Effie Zimmerman, sketching the scene of the waterfront. I always knew someday she'd be an artist in some line.

There she is, Ivy Driver. Smack! Did she hit the ball! An amateur baseball player she is, but a good one at that.

"The Morris Beauty Shop:"

"Now, Mildred, be careful. Oh, you've got that wave too high to suit me," protested Edna Simmons, a society lady of Philadelphia. "Dear me," sighed Mildred Morris. "I give up. Perhaps my assistant, Frances Smith, can do a satisfactory job. I'll call her."

Intense quietness came when Billie Craun appeared, seated behind an elaborate desk in deep concentration. Just then Ellen Ann Furry, his private secretary, stepped inside of the door and announced to him that Mearl Gordon, Governor of West Virginia, would like to have an interview with him.

The scene goes to the North Pole, where I immediately recognize Frank Hisey and Everette Wilkinson exploring.

Splash! Down into the water went a graceful young lady from a one hundred foot diving board. I was held in suspense until she came to the top of the water to find none other than Louise Hottel.

Mounting the steps of the Drake Hotel in Chicago is Miriam Kiracofe about to conduct an interview for her journal.

There goes Charlie Smiley with fishing pole on his back. I know where he's headed for.

Earnestly and intently sits Myra Foster meditating over the plot of her new short story.

"Just finished," said Earl Gordon, who is now an expert auto mechanic. He had just received the remuneration of his customer and was in the act of removing the grease from his hands.

The screen was blank. Was that all? Yes. An hour of real entertainment had been spent in seeing what a wide range of vocations my old friends of B. H. S. had selected for their life's work and enjoyment. Such a treat!

Senior Class History

On the morning of September 19, 1932, fifty-two very excited boys and girls were seen trying to find the starting point on the climb up the ladder of Learning and Knowledge.

After a few weeks of a little progress and many adjustments, the group decided to elect officers to lead and direct them. Those chosen were: president, Mary Elizabeth Miller, vice-president, Ethel Miller; and secretary, Henry Pitsenberger. Mrs. Ikenberry was advisory member and Miss Click the honorary member.

The slogan, "Not to the top, but climbing," was selected. This furnished courage and they decided to keep and abide by it throughout the coming years. They flew green and white as their colors and were distinguished by the lily of the valley.

It seemed that everyone realized that he had a hard task before him and worked hard to start conquering it. In spite of difficult tests and examinations only a few lost their footing. Then on June 1, 1933, nearly everyone realized that he had topped the freshmen round in the ladder.

On October 2, 1933, the group came together again. This year quite a few pupils enrolled from Mt. Crawford, Springcreek, and Briery Branch, making the class larger than it had been the previous year. The officers chosen were as follows: president, Mary Elizabeth Miller; vice-president, Dewitt Miller; secretary, Alice Miller; and treasurer, Marion Thacker. Miss Click was the advisory and honorary member.

The class kept the same slogan, the same flower, and flew the same colors as of the preceding year.

About mid-term, the school was privileged to move into new class rooms, the result of the large addition to the building.

On April 7, 1934, an April Fools party was given in the new auditorium.

At the end of the year everyone felt "weaker but wiser," from the hard struggle he had made to the second step upward.

The third happy year of high school began September 24, 1934, and the class started quickly to achieve more knowledge and to battle bravely toward another round in the ladder.

The leaders for the year were Ralph Alley, Marion Thacker, Alice Miller, and Billie Craun. Mr. Glick was advisory member and Miss Click the honorary member.

This year the class was well represented in athletics.

After the first month had elapsed, a hike and picnic were planned.

Just before the year was up, and another round in the ladder had been reached, the group entertained the seniors and gave them a final farewell treat.

The class came together for the fourth and final year in the fall of 1935 and elected Mearl Gordon as president, to be assisted by Marion Thacker, Alice Miller, and Billie Craun. Miss Miller and Miss Click were the advisory and honorary members respectively.

In the early part of the year the group had their first outing together as seniors and on March 20, 1936, had a party in the school auditorium.

This year tasks were more complicated and there was plenty of hard work, but these did not hinder progress. It proved to be a most glorious year for everyone.

And now that we, the class, have fulfilled our duties and graduated from high school, we still have in mind that slogan, "Not to the top, but climbing." We do not profess to have reached the goal in learning, for we realize there is much to learn yet. We do, however, think we have learned a great deal, and for this we are most grateful to all the members of the faculty, and to those that have left us in the past three years.

Juniors

Three steps now we've ventured
'Pon the ladder of success.
One more yet to conquer,
And it the very best.
Each one seems to help us
The next one to subdue.
Let's bolster up our courage now
We've got to see it through.

The time is drawing nearer
When our school days will be gone.
Will we look back with pleasure
On the things that we have done;
Will our record be a thing to which
Our parents point with pride;
Will we have that "well done" feeling
Which we know will ne'er subside.

These and numerous other questions
We must ask ourselves at once.
Have we been a clever pupil
Or a hopeless thick-skulled dunce;
In that final day of reckoning
When we leave school days behind
How will we be in answering these
To our inquisitive mind.

You may be on the wrong side now,
But you've another chance,
Another year to put yourself
Where no one looks askance.
Or if you've always stood on top
And been in front of the race
Remember that you've another year
And you'll have to hold the pace.

So whether you're dense or clever
You've another step to take,
Another round on the ladder of hope,
Another venture to make.
Let us fly away to the fields and woods
And return next fall to do
The work and the study we know is right.
Let's face the world anew.

Junior Class History

WHAT a day for us! Our first day in high school! Our wide, wondering eyes viewed a scene of bustling activity, for students were returning to school, advanced one more step up the ladder of "Education." We, a group of innocent "greenies," numbering forty-five, came forward to claim our places of prominence and were classed together under the time honored name of Freshmen. We soon organized our class as follows: president, Frederick Dove; vice-president, Elsie Cook; secretary, Wilda Hollen; and treasurer, Cabell Shull. We steered safely through the year with a few minor mishaps and adventures, and with several jolly parties adding variety to the every day routine. Toward the end of the year we selected Mrs. Ikenberry as our honorary member, blue and white for our class colors, blue and white iris for our flower, and "To make the better best" for our motto.

The next fall we came eagerly back to school, much wiser (and probably a little more swell-headed) since we could now claim the sophisticated name of Sophomores and think of ourselves as upperclassmen. Our membership increased to fifty eight, making us the largest class in school, of which fact we were very proud. This year we changed the personnel of our class organization with the following results: president, Evelyn Suter; vice-president, George Lequear; Secretary, Charlene Rhodes; and treasurer, Frederick Dove.

Soon after school started we went to "The Willows" for a "get-acquainted" party. Here we played games, had a wiener roast, and all had a good time in general. Toward the last of the year we had another rollicking party in the school auditorium.

In May we parted, looking forward to our vacation and also the time when we would return to school as "full-fledged" Juniors.

The time soon came when we again took up our school books, put on our thinking caps, and started another year of serious study. We again made a change in the administration of our class as follows: president, Frederick Dove; vice-president, Jimmie Dickson; secretary, Catherine Craun; and treasurer, Quayle Early.

Early in the fall we hiked to "Mint Springs," where we played games and had a picnic, and again in the latter part of the school year we held a party in the auditorium.

These diversions spurred us on and we made an enviable record. A number of our members were on the basketball and baseball squads and we were well represented in the other activities of the year.

Now in May we again come to the parting of the ways and are more or less excited, for next year we will come back as dignified Seniors. We look forward eagerly to that time when we can return to the old school and complete our four-year record with the hope that it will be one of which we may feel proud.

—FREDERICK DOVE.

Sophomores, 1936

We are the Sophomores.
 What a big fine class!
 We've come a long distance,
 And every one had a pass.

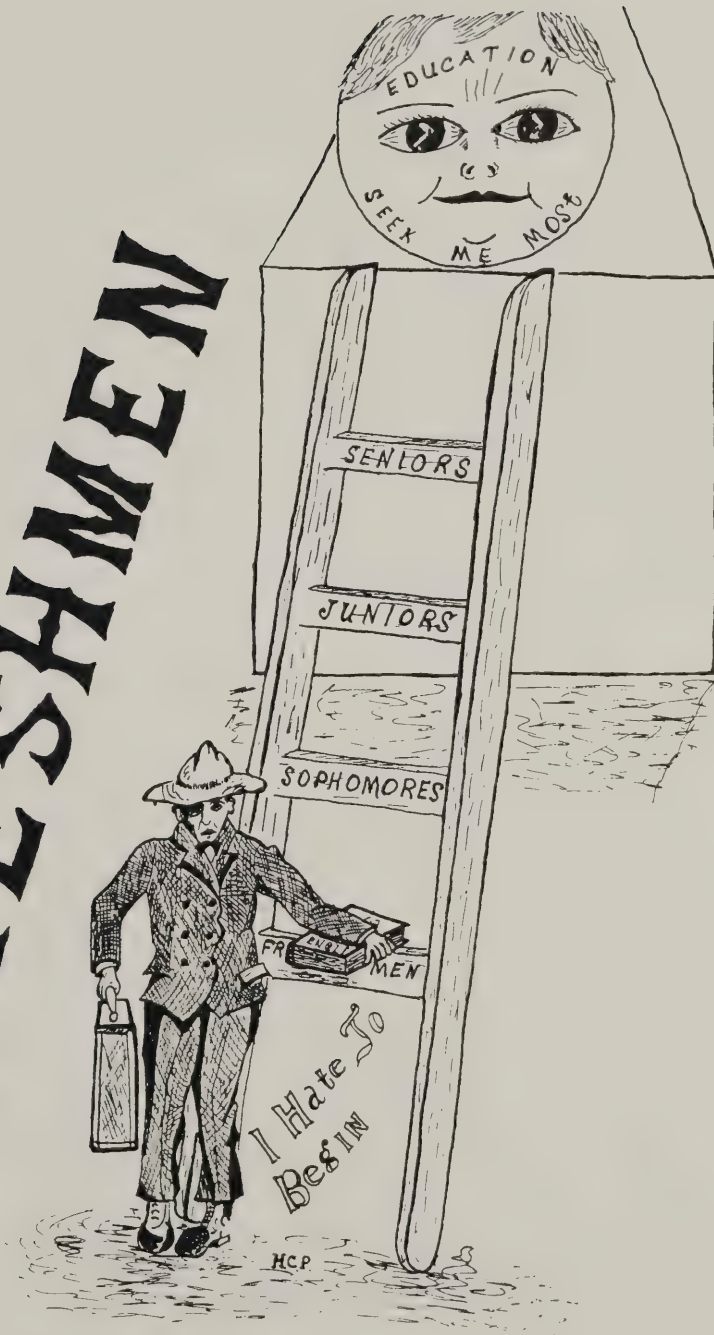

We look straight ahead
 To being Juniors next year,
 When all former Juniors
 Will be left in the rear.

But our wagon is hitched
 To a glowing star;
 And never shall we rest
 Till Seniors we are.

We'll graduate with honors,
 Our teachers' pride we'll be.
 Now, please don't say we're boasting;
 Just you wait and see!

Freshman Class History

ONE EVENING two girls, Jane from Bridgewater High School, and Betty from another school were discussing experiences of the past school year. As both were Freshmen, they had interests in common.

"Who were your class officers last year?" asked Betty.

"Oh! we elected Jean Pope, president; Anna Margaret Turk, vice-president; Janet Riddel, secretary; and Kermit Early, treasurer. They were mighty good, too," answered Jane. "We have some very interesting clubs, and members of our class are in them all," Jane went on.

"Did you pass your mid-term exams?" asked Betty. "I did."

"Yes, most all of us did," answered Jane, "and did I tell you about the hike we had in October? No! We hiked to Riverside Park and had a weiner and marshmallow roast and had lots of fun. And the party Valentine night! The Freshmen aren't green in having fun. We know a good time when we see it."

"Our school has a paper. Does yours?" asked Betty.

"Yes, it's called *The School Chatter*. We had a Freshman issue one month. Mary Ryan White and Ray Graham are Freshmen home room and class reporters.

Betty discussed her school activities and then asked, "Jane, do you have assemblies in your school?"

"Yes," answered Jane, "our class had charge of one around Thanksgiving. We dramatized *The First Thanksgiving*. Miss Bowman directed us. She's our class advisor, you know."

"Both Freshmen girls' and boys' basketball teams are going to make fine players. The boys have started baseball practice too," said Jane.

"Does your class have a motto?" asked Betty.

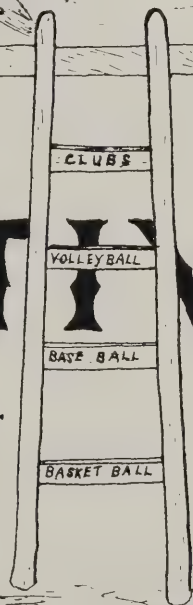

"Yes," answered Jane, "a good one that has real meaning—'We ought, we can, and we will.' Our flower is the American Beauty Rose. I love roses, don't you?"

"Our—Oh! your mother's calling. Well, come back again. As I was saying our colors are blue and sil—. O! she's gone!"

Boy's Basketball

Under the excellent training of Coach Glick the boys' basketball team has had a fairly successful year. By hard fighting they won many games, and by being good losers as well as winners still held up the ideal of good sportsmanship.

JAMES CASEY

FORWARD

James is our mainstay as forward. His willingness to co-operate with his teammates and his shooting ability have made him a high pointer in many games.

RODNEY SNYDER

GUARD

Rodney is a hard fighting guard. He is a good defensive player, and whenever he shoots for the goal two points are gained for B. H. S.

EDWIN MILLER

CENTER

"Eddie," who is the tallest in the line-up, gets the tip-off from center most of the time. Whenever there is an opportunity he lays the ball into the basket.

DEWITT MILLER

FORWARD

"Dee" is a dependable forward who makes many baskets for us. He passes the ball well and never gives up until the game is over. His long shots are very characteristic of his playing.

CABELL SHULL

GUARD

Cabell, with his speed and accuracy, has won a place on the team this year. With his quickness he goes through for the basket and a point is scored.

CLARENCE ROGERS

FORWARD

"Bum" is our midget forward who passes the ball around his guard and sends it down the floor. His height does not keep him from being a pointer for B. H. S.

JESSE M. MILLER

GUARD

"Sugar" is a good defensive player. He does not shoot for the basket much and does not let his man shoot either. He has kept the opponent from making many goals.

EARL WISE

FORWARD

Earl is another one of our midgets who can get around his guard and make a quick break down the floor for a basket. He works hard and keeps the pep in the game.

Although the team will lose some of the main players this year, we are sure that the team of next year will find able substitutes and carry on with "a fair show and a square deal."

Girl's Basketball

The girl's basketball team of B. H. S. has had a successful year, thanks to their coach, Miss Miller. They have carried on through defeat as well as victory.

LOUISE HOTTEL

FORWARD

A good forward, full of pep, and a good looser, is Louise. She can be put in the game at any time and she will do her best. She has fought hard for the past two years, and has been loyal to her school and team.

ETHEL MILLER

CENTER

With her good spirit and cleverness Ethel has helped to win the games; however she knows how to take a defeat as well as a victory. She has remembered to uphold the highest standards of sportsmanship.

CHARLOTTE ARGENBRIGHT

SIDE-CENTER

Charlotte is one of our members to be counted on in a pinch. She has shown us that she is a good sport. "Play clean" is her slogan.

ALICE MILLER

CENTER

Alice, another one of our centers, always entered the game with the spirit to win. She's a splendid sport and a good passer as well as an accurate dribbler.

MYRA FOSTER

GUARD

Myra is a good sport, a hard fighter, and a real athlete. She believes in "a fair show and a square deal." She has broken up many passes that would have meant goals. This has been her third year on the team and she has proven her value.

IVY DRIVER

SIDE-CENTER

Happy, snappy, and scrappy Ivy is our best side-center. She knows how to be aggressive on offense, and also how to break up the opponent's plays. She never gives up—only when put out on fouls.

ELEANOR MILLER

FORWARD

Eleanor, another of our forwards, has proven herself a very valuable member of the team. With her quick eye and hard fighting she sends the ball into the goal. Count on Eleanor in a pinch and you'll get out of it.

GLENNA WINE

GUARD

From Briery Branch comes this dependable guard, Glenna. Although this is her first year at B. H. S., we know her worth, for she goes into the game with the spirit to win. We are expecting the same of her next year.

EVELYN SUTER

FORWARD

Evelyn can be depended upon to add many points to the score for B. H. S. She is the making of a good athlete, by her alertness and speed. She has already proven to be a valuable member of the team.

Most of the members leave the team this year, but they feel that those of next year will be successful and hope that it will hold up the ideal of sportsmanship that must exist if any team is to be a success.

Baseball

THE SEASON of '36 promises to be a very favorable one for the baseball team.

After a few afternoons of work the diamond was put into shape and training, under Coach Glick, began.

The squad consists of about thirty-five members, among whom are Dewitt Miller, James Casey, I. N. Dovel, Paul Jones, Orey Huffman, and Harry Lee Whitmore, letter men of previous years.

Several fine men are out as pitchers among whom are Casey, Hisey, Dovel, and E. Miller. The team is expecting great things of them.

Possible catchers are Huffman and Suter, who have proven their value formerly.

The fielders and basemen will be chosen from the remainder of the squad.

An entirely new schedule has been worked out by Coach Glick and Manager Dewitt Miller. The team this year will compete with schools in class C.

Physical Education

PHYSICAL education is a period of recreation and organized sport which keeps the students in good physical condition and enables them to do their school work better. It holds an important place among the activities of our school.

In the fall a major was elected for both boys and girls to take care of equipment and help with the direction of the physical education program. Sylvester Taylor was elected major for boys and Alice Miller for the girls.

The boys and girls were divided into sixteen teams, each of which elected a senior as captain whose duty was to take the team to and from the athletic field, keep the number of points made, and arrange his or her team in order.

The boys played play ground ball, volley ball, speed ball, and kick-baseball, while the girls played kick-baseball, volley ball, play ground ball and circle dodge ball.

During the winter term three games of volley ball were played each day in the gymnasium. These were enjoyed by all.

March 9 the spring term of physical education began with calisthenics and games out of doors. Everyone was anxious to get out in the open again for fresh air and more vigorous exercises.

Captains were as follows:

<i>Girls</i>	<i>Team Number</i>	<i>Boys</i>
Katherine Dovel	1	Charlie Smiley
Mary K. Bradburne	2	Harry Lee Whitmore
Louise Hottel	3	Orey Huffman
Henryetta Heltzel	4	Dewitt Miller
Miriam Kiracofe	5	Henry Pitsenbarger
Ethel Miller	6	Frank Hisey
Edna Simmons	7	Leon Garber
Eleanor Miller	8	Clarence Rogers

Bridgewater Spirit

Words and music by
NELSON T. HUFFMAN, '20

Tempo marcia

1. Bridge-wa-ter High, 'tis thee we cheer, As in the days of old;
2. We love thy walls and sa-cred halls; All in a hap-py throng

The first system of music consists of two staves. The upper staff is in treble clef with a key signature of one flat (B-flat) and a 4/4 time signature. It contains a melody with eighth and quarter notes. The lower staff is in bass clef with the same key signature and time signature, providing a harmonic accompaniment with chords and single notes.

We praise thy name which is so dear, And stand by the blue and gold.
We ral-ly to thy stan-dard true, With mirth and joy and song.

The second system of music continues the melody and accompaniment from the first system. It features similar rhythmic patterns and harmonic support.

CHORUS

Hail to the school we all a-dore, And cheer her col-ors too,

The third system of music begins the chorus. It maintains the established musical style with a consistent melody and accompaniment.

Then to Bridge-wa-ter ev-er-more, We will for-e'er be true.

The fourth system of music concludes the chorus. The melody ends with a final note, and the accompaniment provides a solid harmonic base.

We feel that our best advertisement is the fact that year after year we print the same annuals. There are several reasons we say this. In the first place it signifies complete satisfaction on the part of the customer. Then too it means our service has been on or above par. We have enjoyed working with you again this year and trust that our efforts have helped you fulfill your desires and that you are again completely satisfied.
